Junior Handling 6-11

Really enjoyed judging these three very competent handlers who all showed off their charges to advantage and who should all have many years of fun in our hobby. Just a couple of things to think about is to make sure at all times that, as a handler, you blend into the

background and make sure it is your dog who is the focus of attention. Also, make sure you are talking to and encouraging your dog, especially on the move

Junior Handling 12-16 & Best Junior Overall

1st Harriet Duffield top quality handler who was quietly competent. Really brought out the very best in her charge. She has 'great hands' as the Americans would say.

Adult Handling

What a lovely idea to have an adult handling class and quite humbling for me since all three of these ladies had considerable better handling ability than me. I really admired the way that they made the dog centre of attention and did everything they could to show off their dog to best advantage. Marguerite was the winner because she made it look so effortless and I really didn't notice her at all, it was all about the dog
